LIHIT.

ORR/I/OH Requirements for IPC list

Phland

Objective L. 4.

Soviet over-all politico-military strategy, intentions, and plans, particularly with respect to initiating hostilities using Soviet or Satel-lite armed forces.

(A) GUIDED NISTILES

Bests Reputrements

Indications of preparation for guided missiles attack from land bases in Folund.

Objective I. c.

Present and probable future Soviet capabilities for nuclear attack on the United States or key US overseas installations and for defense against air (including missiles) attack.

Prestative d

There are no guided missile installations known to be located in Poland. In the event of war the USSR might employ tactical guided missiles from bases in Poland. It is unlikely that the USSR would plan to base long-range missiles or muclear vespons in Poland for an attack on the United States or May Wi installations.

(A) OSTIND MISSILES

Beate Requirements

Poland could provide a Soviet have from which to operate against most of Western Europe and the British Inlam. Information is needed on the present status and future role of Foland in the Soviet Elec guided missile program. Data on performance and characteristics of operational guided missile weapons systems, precise locations of launching sites, factory markings on components of missile weapons: systems, identification of installations involved in production of respicts or their components are required.

NO.

THE STITE

l. Unconfirmed reports of possible missile launch sites in Poland are too numerous to list. Reporting is desired on any such possible targets in order that existing information may be confirmed or desired and that hitherto unreported targets may be located.

ORR/I/SH Requirements for IFC List (Continued)

Poland

- 2. Little is known concerning the extent of military activities within certain "Prohibited Areas". It is likely that the presence of guided missiles in a country sum: as Poland would result in the electing of areas where such units would be located. Therefore, information on military activities in prohibited areas is of considerable potential importance.
- 3. Surveillance of certain targets in the Polish rail or road transport system is required for detection of possible movement into Polish of missiles and muriliary missile equipment (redar, launching equipment, and missiles transport equipment.) Information desired includest description of the missiles and muciliary equipment; their point of origin; destination; personnel accompanying the sevement (if military, their branch of service and unit designation.) Pargets for such observation are rail and road centers and border stations.

Objective II. d.

The strengths and weaknesses of the loviet (including Satellite) economy, with particular reference to its ability to support a major san; the motivation, character, and segmitude of current economic development programs, their implementation and their effect upon the economic, political and military strength of the Soviet Blog the capabilities and mulnerabilities of the Soviet and matelline internal communications systems.

(L) BAILROADS

Bests Requirements

Information is needed on a continuing basis on the capabilities of Polish rail and read networks to support the rapid deployment of Soviet missiles in Poland.

Of looting II. f.

The general capabilities of the Seviet and Catellite armed forces.

Seels Regulrements

The degree, if any, to which Polish units have received missile training in the NESS, and/or are equipped with Soviet missiles.
